

Formalization of the Denotation Semantics of Automatic Differentiation in Coq Project Proposal

Curtis Chin Jen Sem
(5601118)

April 2020

1 Introduction

2 Background

2.1 Automatic Differentiation

2.2 Coq

2.3 Denotation Semantics

2.3.1 Domain Theory

3 Preliminary Results

3.1 Preliminary Proof

3.2 Proof Extension

4 Timetable and Planning

4.1 Deadlines

4.2 Fill in missing holes

4.3 Generalize prototype for variants and recursive types
